

MOVEABLE KITCHEN WITH INDUCTION HOB AND
INTEGRATED EXTRACTION SYSTEM

TECH SPECS

- Dimensions: W 900 x D 700 x H 900 mm
- Induction hob dimensions: W 800 x D 510 mm
- Maximum power supply allowed for one induction cooking zone: 3,7 kW
- Power input: 7,4 kW
- Voltage: 200/240 Volt
- 4 Inductions cooking zones with **Tuttocampo-technology**
- **Tuttocampo-technology** combines up to 4 inductions zones to create a maxi zone ideal for heat distribution for any shape or any pot size
- Front touch control
- Automatic pot detection function
- 9-level variable temperature control
- Security lock
- Independent timer for each induction hob zone
- Residual heat indicator
- Assisted cooking with temperature sensor
- 6-speed range hood blower with integrated extraction system
- Suction power: 650 m³/h
- Automatic shutdown timer
- First mechanical air filtration (washable filters)
- Second activated charcoal air filtration (regenerable filters in the oven)
- Extraction system noise: 60 dB
- Energy efficiency classes: A
- Weight: 110 kg
- Packaging dimensions: W 1030 x D 840 x H 1090 mm
